DEAR MADAM/SIR,

The training will also offer a series of practice case studies of intangible values mapping in the world.

ILUCIDARE is a European funded project which promotes heritage as a resource of innovation and international cooperation. The funding for this project derives from European Union’s Horizon 2020 research and innovation programme. It is a 3 (three) year project starting from February 2019, led by the University of Leuven, in partnership with Europa Nostra, KEA European Affairs, International Cultural Centre, World Monuments Fund Spain, Kosovo Foundation for Cultural Heritage without Borders - Kosovo, University of Cuenca and IMEC. ILUCIDARE ambitions to establish an international network promoting heritage as a resource for innovation and in international cooperation through a diversity of collaborative activities. Within the scope of the program, Coaching sessions and Capacity building activities are planned to be provided for the selected stakeholders in Albania, Kosovo and Montenegro on the theme of the shared heritage of Kullas. The Coaching sessions were held in Gjakova/Kosovo on 07-10 October 2019, to assess the local needs and the level of capabilities in order to best prepare capacity building modules. Additionally, they served to foster a first interaction and cocreation among the consortium and local stakeholders to increase impact of and advance understanding on heritage-led innovations and diplomacy. During these days, local experts were consulted and jointly developed and set-up the capacity building agendas in accordance with the regions needs and challenges. From March to October 2021, some Capacity Building modules shall be held in Albania, Montenegro and Kosovo, touching upon 3 (three) main themes that serve one (1) end joint purpose, that is developing shared strategies for the re-use of Kullas and applying for cross national nomination for UNESCO enlisting of Kullas.
